This drink list was studied and drawn up by our barman Pierluigi Carracchia to try to get satisfy the palate and taste of all our guests. Every ingredient has been studied and processed to offer a maximum expression of taste, goodness, and pleasantness. We go from strong and decisive flavors with soft and delicate hints trying to reach a single goal, the harmony in drinking it.

From the cold of Poland to the torrid heat of Mexico to combine different distillates for production and taste, in a single mixed cocktail.
